

CONTI SYNCHROFORCE® CXP Industrial Timing Belts

CONTI SYNCHROFORCE® CXP.

When you expect continuous operation without a break.

Thanks to its high resistance to wear, the CONTI SYNCHROFORCE® CXP Industrial Timing Belt is ideal whenever large power outputs, high torques, or high speeds have to be reliably transmitted for extended periods of time. Plus, the multitude of sections, with a total of three pitches, covers a wide performance range and makes for maximum cost-efficiency in a design as compact as requirements allow.

A few more reasons to choose the CONTI SYNCHROFORCE® CXP

- Available in profiles 5mm, 8mm, and 14mm (HTD or STPD)
- Dual-Sided Available
- Electrically conductive according to ISO 9563
- Remains stable from -4°F to 212°F (-20°C to +100°C)

ContiTech Industrial Timing Belts are available in the NAFTA market exclusively from CRP Industrial. For details or samples, call CRP's US headquarters at 800-526-4066.
